

ASWM-NRCS Webinar #3

Wetland Ecology for Planners: How Wetlands Function

1. **Wetland Source Waters and Soil Properties**
2. **Introduction to the Hydrogeomorphic (HGM) System**
3. **Concepts of Wetland Ecology**
 - Succession
 - Disturbance
 - Equilibrium
 - Resistance & Resilience
4. **Ecological Dynamics of Wetlands**
 - Timing, Frequency, and Duration of Events
 - Water Movement, Energy, and Power
