

## **Supporting Information for the Compensatory Mitigation Compendium Searchable Spreadsheet**

### **How to Use the Searchable Spreadsheet:**

The Compendium Searchable Spreadsheet is in the form of an Excel document. It could however be transformed into a more interactive or user-friendly tool by the Corps. In its current format, the resource is searchable by using the sort function for each column to put things into common categories and by using the "Find and Select" function in Excel to identify specific words (e.g. mapping), which will bring the user to each place that word is found on the spreadsheet.

### **Categories of Information for Sorting**

1) Type of Resource, 2) Source and 3) Keywords

#### **Type of Resource**

- Factsheet
- Guide
- Handbook
- Journal
- List
- Proceedings
- Report
- Standards
- Tools
- Training
- Webinar
- Website
- White Paper

#### **Keywords (Derived from Resource Title, Not Content Review)**

- APP (electronic application)
- Assessment
- Avoidance
- Evaluation
- Calculator
- Climate Coastal
- Conservation
- Credits
- Debits
- Damages

- Definitions
- Economic
- Ecosystem Services
- Fees
- Fire
- Flow
- Forestry
- Functional Assessment
- Guidelines
- Guidance
- Habitat
- HGM
- ILF Mitigation (In Lie Fee)
- Information System
- Instruments
- IRIS
- IRT (Interagency Review Team)
- Jurisdiction
- Land Trust
- Land Use
- Landscape
- Law
- Loss
- Management
- Mapping
- Markets
- Minimization
- Mitigation Banking
- Planning
- Plants
- Policy
- Precipitation
- Protocol
- Rating System
- Regulation
- Rule
- Science
- Siting
- Software/Program
- Soils
- Status
- Stakeholders
- Standards
- Streams
- T/E Species (threatened and endangered species)
- Tools
- Transportation
- Watershed
