

## Wetland & Water Education Resources

### *A Reference List for Tribal Wetland Programs*

#### Activities/Materials:

- [Wetland Inhabitant Word Search](#) (from EPA)
- [6<sup>th</sup> Grade Wetlands Curriculum](#) - Produced by the Institute for Applied Ecology for the Confederated Tribes of Siletz Indians
- [Indigenous STEAM Learning Activities - Water](#) (org also has sections on plants, birds, and food)
- EPA “How’s My Waterway” [Middle School Lesson Plan](#) (requires internet access)
- [Our Wetlands, Our World High School Activity Book](#) – written for California coast but could be adapted for other areas.
- [Create Your Own Wetland Bird](#) – 3 versions for different age levels
- [Wildfowl and Wetlands Trust Activity Sheets](#) (from the UK – not all activities will work in the U.S.)
- Kootenay-Columbia Discovery Centre Society [Kids Activities](#)
- [USGS Water Education Posters](#) (wetlands poster in bottom row – includes activity ideas on back side)
- [USFWS Wetland Coloring Book](#) (downloadable)
- International Crane Foundation Activity Packets – [3-5 grade](#), [6-8 grade](#) – includes pages on wetland habitat.
- Climate Science Alliance – [Climate Kids Activities](#)

#### Other Resources:

- [EPA K-12 Wetlands Reading Lists](#)
- [Wetlands of Nebraska website](#) – videos about different wetland types and a kids activity book
- [USFWS Conservation Connect Videos](#) – “This series inspires a new generation of conservation stewards by taking students on e-fieldtrips across the country to learn more about wildlife species, conservation careers, and technology used to study and protect these wild creatures.” Bog turtle episode talks about wetlands. Also episodes on brook trout, humpback chub, and freshwater mussels.
- [Iqsak K-12 Science Curriculum Lesson Plans](#) - a curriculum that “reflects Alaska Native beliefs, values and understandings of the natural world and science education standards”. Funded and maintained by the Chugach Regional Resources Commission.
